Taking into account the interests of our Motherland - Uzbekistan and the whole nation of Uzbekistan, as well as our compatriots living abroad, who are always dear to us, the party announces its pre-election platform for 2020–2024.

For us, **“Milliy tiklanish”** (“National Revival”) is a coordinated movement of society towards the formation and strengthening of national customs, traditions and values, as well as restoration and promotion of our centuries-old history, the formation and strengthening of a sense of patriotism in the minds of each of our compatriots.

**“National Prosperity”** is a movement aimed to develop our country, the political and legal thought of our people, and increase the level and quality of life.

The slogan **“Milliy tiklanishdan - Milliy yuksalish sari”** (“From National Revival to National Prosperity”) is a call for the goal to make Uzbekistan a powerful state and the citizens of Uzbekistan a prosperous nation.

**The Democratic Party of Uzbekistan “Milliy tiklanish” sets the following main goals and objectives:**

- active participating in reforms aimed at building a new Uzbekistan with the idea of “Changing society by changing people” based on the slogan “From national revival to national prosperity”;
- modernizing of the country to achieve spiritual and social development, creating conditions for the development of human capital;
- transforming Uzbekistan into a developed modern state, further promotion of international authority and prestige;
- providing the priority of national interests in all areas;
- preserving national, cultural, spiritual wealth, rich historical heritage, customs, traditions and values of the nation of Uzbekistan;
- uniting the patriotic people who deeply respect the cultural, traditional and national spiritual values of the nation of Uzbekistan;
- ensuring the harmony of national and cultural values and modern progress;
- ensuring the rule of law by increasing the legal, political consciousness and culture in society;
- providing the reliable communication of the state and society, accountability of officials to citizens and ensuring the effective use of citizens' rights in public administration.

**“Milliy tiklanish” Democratic Party of Uzbekistan** considers its electorate to be intelligentsia, including representatives of science and education, culture, art and the information sphere, the youth who are the builders of our future, as well as scientists, teachers and educators, creative workers, athletes, and representatives of the sphere tourism, art and traditional medicine, employees of citizens' self-government bodies, as well as patriotically and creatively inclined representatives of our people, supporting our slogan **“Milliy tiklanishdan - Milliy yuksalish sari”** (“From National Revival to National Prosperity”)

We consider one of the important tasks the realization of the aspirations of our electorate, its comprehensive support, protection of rights and freedom, legitimate interests.

Our party, as a political force in the country, is on the path to get decisive positions in all representative bodies, nominating a candidate for prime minister, initiating bills consistent with the ideas of the party through its faction in the Legislative Chamber of the Oliy Majlis, supporting candidates recommended for government members based on their programs.

## **I. Priority areas for the further democratization of government and administration, the formation of a spiritually harmonious civil society**

### **“DIALOGUE OF THE STATE AND PEOPLE– MILESTONE OF PROSPERITY”**

We consider Uzbekistan as a politically powerful country with a rich spiritual and educational heritage, an economically developed, stable civil society, guaranteed human rights and freedom.

The party believes that the moral and material improvement of our nation, which is the main source of achieving these goals. The party is a supporter of increasing efficiency, ensuring openness and transparency of public administration, boosting long-term development strategies, introducing innovations in the activities of government bodies, as well as further improving the system of training, retraining and advanced training of staff for public administration.

Establishing a constant and systematic relationship with society, ensuring close interaction between the state and citizens, taking into account the fact that the activities of the branches of government are based on the principle of “people should not serve the authority, but the authority should serve the people”, is based on establishing effective public control over the activities of government bodies.

The party considers its main task to ensure in practice the implementation of the principle "to make the parliament the "People's House", and to make deputies true representatives of our people". The party takes measures to study, analyze and search for solutions to the problems of our people by establishing, first of all, constant and continuous contact of deputies elected to the Legislative Chamber of the Oliy Majlis and local Kengashes with their voters.

#### **1.1. In the field of increasing the role of the Oliy Majlis in the system of state government, as well as the role of political parties and other civil society institutions in the life of the society and state:**

- the establishment of more fruitful relations between the chambers of the Oliy Majlis, executive and judicial authorities;
- development of international cooperation between the chambers of the Oliy Majlis, in particular, the establishment of continuous relations with foreign parliaments and international parliamentary organizations;
- incorporating and implementing “the concept of people's diplomacy” and “the concept of parliamentary diplomacy”;

- widening the power of the Oliy Majlis to exercise control over the activities of the government, in particular, the introduction of "electronic parliament", "electronic parliamentary control", "portal of parliamentary control";
- providing an active participation of political parties and other institutions of civil society in the process of building society and the state;
- the introduction of modern mechanisms for the wide involvement of citizens in the development of regional and state projects;
- the introduction of a system of compulsory submission and acceptance of proposals for the consideration of draft state and territorial programs to deputies of all levels, as well as the Legislative Chamber of the Oliy Majlis and regional, city Council's deputies;
- introduction of the practice of sending draft regulatory acts developed by the Cabinet of Ministers, ministries, government bodies and departments, political parties, in order to analyze depending on their specifics;
- introduction of a system of sociological studies of the effectiveness of adopted laws, as well as their social, economic, political, legal consequences;
- expansion of participation in international ratings for state and public administration, in particular, wide participation in ratings of trust in public policy.

**1.2. In the field of developing people's power, strengthening public control, improving the activities of local councils of people's deputies:**

- taking measures to ensure in practice the constitutional principle according to which "the people are the only source of state power";
- increasing the role of local council's deputies in the system of local state power, stating their obligations and role exactly;
- further expansion of the control powers of local council's deputies over local executive bodies, in particular, strengthening the accountability of local executive bodies to the deputies of local councils;
- introduction of the practice of passing discussions by local councils of people's deputies before being appointed as heads of local executive bodies, with responsibilities of candidates to represent their medium-term and long-term programs with clear indicators;
- strengthening the activities of deputies and party groups in local councils in order to take efficient control over local executive bodies, as well as increasing the legal status of the chairmans of the local councils to establish strict deputy and public control over the activities of the local executive bodies;
- phased abolition abolish the system that the head of the local executive body is simultaneously the chairman of the local council of people's deputies;

- creating a clear system to make deputies of representative bodies at all levels of the party work in continuous cooperation.

### **1.3. In the field of further reform of public administration and public service:**

- strengthening the status of state workers at the legislative level, introducing a system for selecting state workers based on the requirements for knowledge, qualifications, abilities and enrichments, forming a reserve of young national cadres, ensuring a “social elevator” through their systematic presentation to the civil service;

- introducing the system for evaluating the performance of all state organizations and employees;

- creating a model for the promotions of state workers into official positions;

- widespread introduction of interdepartmental rotation of workers, as well as internal rotation in the organization;

- supporting for reforms that enhance the openness of government and management, accountability of government bodies and leaders for society and people;

- eliminating administrative bureaucracy, meeting without special need by central bodies of state administration to local authorities and executive bodies, while ensuring their independence and increasing their responsibility;

- increasing the effectiveness of protecting the rights and legitimate interests of citizens by creating an effective system of communication between state bodies and citizens;

- creating a healthy spiritual environment and ideological immunity in the activities of state bodies and their officials, ensuring the rule of law, improving the legal awareness and culture of workers;

- providing citizens with access to detailed and open information about the activities of state bodies, thereby further strengthening confidence in the state;

- the establishment of social protection of state workers, the protection of their rights, the expansion of the system of material incentives, while increasing their social responsibility;

- conducting objective sociological research aimed at studying, analyzing the needs, requests and desires of citizens.

### **1.4. In the field of further increasing the status of the Uzbek language as a state language, in the matter of its wide promotion in our country and abroad:**

- enrichment and further improvement of the state language, the development of a set of measures aimed at improving the culture of the language, the quality of

mutual circulation, carrying out specific and focused work that will prevent violations of the norms of the Uzbek language in official and public circulation;

- The adoption of practical measures to ensure the development of the Uzbek language, its purity, ease of use, ease of use;

- the use of the state language in government bodies and in government and in official circles, as well as the writing of legislative acts and departmental correspondence only in the state language;

- creating conditions for learning the Uzbek language both domestically and abroad, including assistance in creating free online platforms aimed at teaching the Uzbek language;

- supporting for expanding the database of the Uzbek language, including translation of practical and professional books in foreign languages into the Uzbek language;

- providing necessary materials to meet the demands of our compatriots living outside of Uzbekistan for the Uzbek language and culture;

- ensuring the use of the state language in the media, in particular on television, radio and in the streets for advertising and other external announcements;

- annual holding of competitions in the Uzbek language among the general public members and state workers;

- conducting ongoing activities to teach and to popularize the Uzbek language in foreign countries where our compatriots live;

- improving the quality of the dictionaries of the Uzbek language, stimulating the creation of electronic programs in the Uzbek language and their practical applications;

- creating a national Internet search system in Uzbek, an increase in the number of open Internet sites containing scientific and educational resources in the Uzbek language;

- teaching the Uzbek language as a foreign language internationally, first of all, promoting the popularization of methods based on modern multimedia tools that contribute to the study of the Uzbek language in an easy way by other nationalities living in Uzbekistan;

- The creation of the Scientific Translation Center at the Department of the State Language Development in the structure of the Cabinet of Ministers of the Republic of Uzbekistan;

- Strengthening responsibility for violation of the Law on the State Language.

## **II. Priority areas for ensuring the rule of law in the country and further reforms of the judicial system.**

### **“ACHIEVEMENT OF THE WELFARE OF THE PEOPLE AND THE DEVELOPMENT OF THE STATE BY TIMELY MAKING AMENDMENTS AND ADDITIONS TO LEGISLATIVE ACTS, ALSO BY MEANS OF ENSURING THE FULL IMPLEMENTATION LEGISLATION IN PRACTICE”**

Ensuring the rule of law and further reforming the judicial system, strengthening guarantees of genuine independence of the judiciary and reliable protection of the rights of citizens is a priority for our society.

Accelerating the formation of a democratic society and the success of reforms in this area mainly dependent on the legal consciousness and legal culture of the citizens. The party considers one of its main tasks to increase the legal awareness and culture of citizens, which are the basis of a democratic society and an indicator of the perfection of the legal system in the judicial sphere.

The party carries out systematic approaches to ensure enforcement of the rule of law, including the protection of human rights and freedom, the inviolability of private property, the enforcement of laws in practice, and the elimination of conflicting or repeating norms in legislation.

The party considers supporting to increase legal and political intellect of citizens as its important function in the judicial sphere. Our party welcomes the adoption of systemic measures aimed at further improvements in legal education within the country, promoting legal knowledge in society.

The party aims to improve the legal framework aimed at limiting unreasonable interference of state authorities and management in the activities of private entrepreneurship.

The party takes an active part in achieving direct implementation of laws, that is, in the process of minimizing reference standards in laws and reducing the number of regulatory legal acts.

#### **2.1. In the field of further improvements in the activities of the judiciary and law execution organizations, promoting the concept of "Sustainable Legislation":**

- establishing systemic measures aimed at further improving legal education, popularization of legal knowledge in society;

- the creation of mechanisms aimed at attracting families, educational institutions, makhalla institutions, government institutions to the formation of law-abiding citizens;
- ensuring a high level of direct and indirect participation of our nation in the political processes;
- expanding the active participation of the population in the discussion of law projects, secondary legislation and other regulatory legal acts;
- producing spiritual and educational methods and ensuring the inevitability of responsibility in the fight against corruption, the formation of an uncompromising attitude towards corruption in the minds of people.

## **2.3. In the field of introducing such noble qualities as mercy, generosity, compassion, humanity and tolerance into judicial practice:**

- further liberalization of legislation on criminal matters, simplification of the policy of decriminalization of certain crimes and the procedure for the execution of criminal sentences;
- the establishment of administrative and criminal liability for monopolistic activities, as well as for violations in the field of medicine, in particular, the failure to provide medical care, the provision of incorrect information in the diagnosis and treatment, and other cases;
- widespread introduction of the institution of reconciliation in administrative cases in the process of courts;
- the implementation of modern institutes of criminal law into the national legislation, which are widely used in international practice, in particular, the expansion of the category of criminal cases that are instituted only with the application of the victim;
- improving the system of pre-court settlement of family, inheritance, housing claims and other conflicts arising in everyday life, including the desire to reach a compromise and the peaceful resolution of any dispute, which is inherent in our

people, reducing the proportion of cases considered in court, in practice, by widespread use of pre-court institutes;

- Association of criminal, administrative, civil and economic courts operating in districts, cities and regions, while maintaining the specialization of courts.

#### **2.4. In the field of improving the lawmaking process and ensuring the rule of law:**

- establishing the legislative framework for legal expertise and anti-corruption expertise of legislative projects;

- ensuring the adoption of direct applicable laws, reduction of secondary laws and regulatory acts, as well as minimizing the adoption of regulatory acts by the Ministries, government bodies and departments and phasing out this practice;

- the establishment in the legislative procedure of participation not of deputies, but of officials or responsible representatives of entities having the right of legislative initiative as a speaker in the adoption of bills in the first reading in the Legislative Chamber of the Oliy Majlis and discussion in factions;

- unification of legislation in the field of economics, trade, industry, energy, healthcare, tourism, logistics, transport, aviation with international standards and legislation of developed foreign countries with the aim of introducing modern approaches to the lawmaking process;

- creation of an electronic system for coordinating legislative projects with interested organizations;

- improving existing procedures for promoting legislative initiative, focusing on the fact that the initiative is aimed at solving the problems of the people and is based on relevant scientific approaches and specific social surveys;

- announcing bills for public, a comprehensive learning of proposals and comments.

### **III. The priorities for developing national economy**

#### **“IF THE NATION IS RICH, THE COUNTRY WILL ALSO BE RICH AND POWERFUL”**

The party's priority is to create a strong, stable and competitive economy. The party believes that an individual approach should always be provided for in economic relations.

The party supports an increase in the middle class in the country and serves to promote qualities such as satisfaction and gratitude in the middle class, recognition of responsibility and spiritual values among the rich. The party is a supporter of reducing the level of income stratification, increasing real incomes and purchasing power of the population.

The party advocates reforms aimed at drastically reducing state participation in the economy and protecting private property, and for ensuring the activities of business structures that are not subject to unlawful interference.

The party considers the sustainable penetration of our national products and brands into foreign potential markets as a vital necessity.

The party stands for effective support of local producers and services in our country, support for an active foreign economic strategy of Uzbekistan based on national interests. We are actively working to increase the reputation of the national brand "Made in Uzbekistan" in the world market.

At the same time, the party considers it is necessary to develop a system to make products manufactured in Uzbekistan more attractive to our consumers.

Tourism plays an important role as a factor accelerating the process of economic development. High development of the tourism industry will contribute to the creation of additional jobs, increase employment of the economically active population, increase the welfare of the nation and promote our national, cultural and spiritual values in the world. It will give impetus to the development of a number of interconnected sectors of economic sector, in particular, infrastructure, and will contribute to their further popularization.

The party supports measures to capitalize intellectual property by modernizing the technological base, research and development, stimulating investments, commercializing their results, budgetary, tax and other means of stimulation.

We are for improving the investment climate in the country's economy. Investments should flow into our economy primarily through legislative guarantees.

It is necessary to reduce the differences in the level of socio-economic development of the regions, to improve the regulatory framework for the formation and distribution of the local budget.

The party believes that simplifying the tax system in the economy, improving tax administration, ensuring the stability of the state budget, increasing freedom in the formation of local budget revenues, ensuring moderation of state budget expenditures and budget deficits, containing inflation and increasing the sensitivity of monetary policy instruments will give a serious impetus to the development of the economy.

The party supports the creation of a competitive national financial system, stimulation of direct investors, the abolition of value added tax and income tax for certain types of products (goods, services), the introduction of modern market mechanisms in the banking and financial system, and the promotion of public confidence in its guarantee.

### **3.1. In the field of increasing the competitiveness among local manufacturers and service providers:**

- the formation of a system that promotes and propagates the consumption of products under the brand name “Made in Uzbekistan”;
- supporting in all respects of domestic manufacturers who replace foreign products and produce commodities demanded in abroad;
- technical and technological modernization of production, reduction of non-target production costs, introduction of new, modern technologies;
- mutual harmonious development of the capital and regions, cities and villages of our country, the elimination of some discrepancies in the economic and social development of the regions;
- meeting the needs of our people, especially young people, in modern high-quality clothing made directly in our homeland, increasing the number of mobile and compact textile enterprises;
- the introduction of a simple and convenient licensing system in the manufacturing sector;
- creating of a legal framework to protect the national market from low quality products and services that are incompatible with international standards;
- increasing the share of private property in industry, transport, communications and other areas of production, as well as in the provision of services;
- the formation of confidence among our people in products created by local manufacturers.

### **3.2. In the field of development of high-tech and basic industries leading in the country's economy:**

- developing the infrastructure which is necessary for the national economy, including railways and roads, improving the quality of energy supply;
- incorporating payment system for energy use taking into account the level of incomes of the population in order to develop the energy infrastructure in the country and increase the energy efficiency of the economy, the development of the energy sector, including the development of the electric power industry, the oil and gas, nuclear energy sectors and the expansion of the use of alternative energy sources, as well as the implementation of reforms providing for the distribution of energy resources in the existing sales system;
- creating conditions for the efficient and free use of energy resources, available raw materials and resources, not only in the leading sectors of the country's economy, such as engineering, electrical engineering, light industry, but also in the services sector, attracting investment inflows into these areas;
- accelerating reforms aimed at localization of industry in our country, further development of industrial cooperation and production of high demand products;
- implementing reforms aimed at industrialization of agriculture, the introduction of agricultural infrastructure, new technologies in agriculture, including the technologies of "Smart Agriculture";
- increase the material benefits of producers in agriculture, as well as the implementation of measures aimed at the formation of private property.

### **3.3. In the field of national innovation system and technology development in the national economy:**

- the widespread introduction of the “digital economy” in the national economy, the development in the country of the mechanism of the widespread transition to digital technologies;
- providing our country with high-speed Internet;
- creating IT infrastructure for the rapid development of Internet commerce, electronic services, digital television and mobile Internet, distance learning, industrial Internet (3D printing) and BigData technologies in all sectors of the economy;
- the development of the unification and cooperation of relations between institutions, universities and industry in order to reduce technological backwardness in economic sectors;
- attracting specialists with a high level of technological knowledge, providing a wide range of opportunities for organizing enterprises and

organizations engaged in activities in the field of innovative developments (nanotechnology);

- support of innovative business and the expansion of demand for innovation in the economy, the development of a competitive environment in the field of technological competition and innovation;

- support for the creation and development of small and medium-sized innovative businesses, including the reduction of administrative barriers to the creation and development of innovative businesses, the study of the requirements for the transition of small and medium-sized businesses to innovative activities, thereby creating government orders for research and development.

#### **3.4. In the field of supporting for domestic producers in the implementation of foreign economic activity, including export promotion:**

- carrying out large-scale customs reforms, including reducing the number of procedures for conducting foreign economic activity, canceling a number of necessary documents (examination, certification);

- reducing inspections and control in foreign economic activity, simplification of communication or relations between entrepreneurs and customs officials;

- support of business entities involved in export promotion and the preparation of import-substituting products.

#### **3.5. In the field of ensuring the stability of the national economy:**

- announcement of a general tax amnesty for individuals and entrepreneurs for the period up to 2019;

- simplification of the tax system, the provision of freedom in the formation of local budget revenues, ensuring moderation of expenditures and the budget deficit of the state budget;

- the growth of domestic savings in the economy, credit and investment activity and sustainable development of the economy as a whole, the implementation of an effective monetary policy to control inflation;

- implementation of a legislative initiative aimed at introducing modern market instruments into the banking and financial system, including the introduction of lending instruments based on partnerships between banks and entrepreneurs as an alternative to the traditional financial system, which is currently rapidly developing in the world;

- the rapid development of the stock market and the capital market in the country, a radical reform of the national insurance system and the wide involvement and promotion of this sector in all sectors of the country's economy.

#### **IV. Further development of the social sphere, as well as priority areas of fundamental reform of the education system in the country**

##### **"CONTINUOUS UPBRINGING AND EDUCATION – THE FOUNDATION OF A STRONG SOCIETY AND STRONG STATE"**

Improving the quality and standard of living of the population, improving living conditions are the main goals of the party in the social sphere.

The party supports innovation for the development of human capital, low costs and rapid development through a reliable training and education system.

The party believes that the education system is a milestone of educating young generation who is responsible and capable, free-thinking, self-respecting, faithful to national and universal values and the future of our country.

The party pays a great attention to create conditions for the education and job of females and males in conditions that take into account their specific needs, providing gender balance in the social, spiritual, economic, legal, political spheres, which serves to ensure democratic principles.

We believe that in order to improve the living and working conditions of women, it is necessary to amend the legislation, and we state that the family is the pillar of society, and the woman is the pillar of the family.

The party supports an effective system for solving existing problems by learning the social and moral environment in families, and conducting an active dialogue. The party supports of the preservation and strengthening of traditional family relations and family values.

The party is actively working on reforming the education and upbringing system in our country, and on improving its quality. In this case, we consider it is necessary to consistently improve these systems.

The new period that began in our country also sets clear and strict requirements for the education sector. The party considers the role of upbringing in the current education system is insufficient. The education and upbringing system, including the period “family - pre-school education - school”, which is considered to be priority period for the formation of an educated, free-thinking, honest and responsible person who recognizes national and universal values. The effectiveness of the system might be reached by the comprehensive elimination of existing problems in the family, preschool institutions and schools.

The party advocates the introduction of the subject and the creation of the textbook “Tarbiya” (“Parenting”), which will be taught from grades 1 to 11, and also we support the increase in the number of hours of the Uzbek language and

literature lessons, the subject “History of Uzbekistan”, which provide knowledge about the history and spiritual values of our nation .

Ensuring the healthy development of children through physical education in preschool institutions and schools should be considered as a matter of improving the national gene pool.

It is necessary to ensure transparency and facilitate the process of confirmation of diplomas received by citizens of our country in foreign educational institutions.

It is very important for us to improve the working and living conditions of scientists and teachers, as well as to increase the respect for them in society.

#### **4.1. In the field of meeting the social needs of the population, improving the quality of life:**

- improving the living standards of people, first of all, ensuring the prosperity and well-being of the rural population, increasing the culture of their life;

- supporting the construction of housing and infrastructure as a priority area of development, the allocation of long-term mortgage loans to young families, the construction of housing for them, and the promotion of further systematic continuation of the implementation of this system;

- usage of international best practices and national architectural traditions in construction and decoration, implementation of large projects aimed at the reconstruction of historic cities;

- improving the system of transport services for passengers, including residents of remote and rarely accessible areas of the country;

- creation of organizational and legal conditions aimed at employment of the electoral part of the population, primarily the development of craftsmanship, family entrepreneurship, home-based types of work among women and youth, ensuring their employment;

- the development of further plans for the development of traditional medicine and the adoption of legal measures aimed at bringing it to the level of modern medicine;

- cardinal reform of the drug trade system, improving its quality and lowering its price, including fixing the condition on legislative basis that sellers of medicines for state medical institutions should not be any business entities, but manufacturers or representatives of the product itself;

- making basic reforms in the medical and pharmaceutical sectors, increasing the position of medical prevention in health care, including reforms to improve the medical culture of the population;

- developing the primary preventive system of medicine, increasing material viability, social protection of workers serving in the primary preventive system of medicine;

- increasing budget funds allocated for the development of cultural institutions, children's centers "Barkamol avlod", music and art schools, including in remote and rural areas;

- educating a physically and spiritually healthy young generation, creation of favorable conditions for the regular participation of children and youth in a wide range of sports, as well as facilitating the participation of schoolchildren in international competitions, the restoration of national sports;

- establishing a specific system of categorized and individual payments for social services, including utilities, that is, the introduction of rules based on solvency, profession and social status of the payers;

- a further increase in the number of schools with in-depth teaching of the exact and natural sciences, support for the successful participation of students in international scientific Olympic championships.

#### **4.2. In the field of strengthening the institution of the family and family values in society:**

- establishing of scientific legal measures aimed at ensuring the existence of strong families in society, a sharp reduction and prevention of family divorces;

- promoting and strengthening family traditions and values, such as family solidarity, respect for older people and caring for children;

- strengthening the morality inherent in the Uzbek family, and, conversely, strengthening the role of the family in the fight against various harmful influences from the outside that are not inherent in our national mentality, solving the spiritual and legal problems of the family, increasing medical literacy and culture, accelerating educational work aimed at a stable image life, reproductive health;

- strengthening care for young families, ensuring their social and legal protection, an even greater increase in the number of healthy and strong families in order to bring a healthy and intelligent generation to the world;

- the implementation of initiatives aimed at eliminating the unpleasant situations that still remain in the lives of families, in particular, holding wedding ceremonies with extreme luxury and other events based on excessive wastefulness;

- carrying out propaganda activities related to the education of youth in traditional family life, with the adoption of interpersonal relations in the family at the level of family values;

- introducing flexible intervals in working hours for citizens, especially women, to create conditions for females to spend more time in the family.

### **4.3. In the field of strengthening social protection with an emphasis on gender characteristics:**

- conducting systematic approach to create and develop the necessary conditions for women to do needlework, housekeeping, craftsmanship, and parenting;
- introducing a constructive system to solve social problems of females
- systematic effort on social rehabilitation and protection of women and girls released from prison;
- assistance in creating the necessary conditions for the adaptation of women and men returning to their homeland from abroad, who have been there for a long time for certain reasons;
- protecting the interests of women and their children who have lost their homes as a result of divorce;
- establishing equal responsibility of men and women in order to get full employment of young families;
- timely identification of women's problems, support for women who need help and have a difficult social situation;
- extensive cooperation in order to attract and support women and young girls in rural areas to family and private entrepreneurship and craftsmanship;
- creating a system of individual work with men and women to improve the socio-spiritual environment in families;

## **V. Priority areas in the implementation of foreign policy, security, inter-ethnic harmony and religious tolerance**

### **“FOREIGN POLICY BASED ON NATIONAL INTERESTS IS THE BASIS OF PEACE AND STABILITY”**

The party advocates that the foreign policy of the Republic of Uzbekistan be based on such principles as the priority of the interests of national statehood, non-interference into the internal affairs of other states, peaceful settlement of all conflict issues, equality of states, non-use of force or prevention of a military threat, inviolability of borders and strict observance of others principles of international law.

The party considers its priority to promote the cultural, traditional and national spiritual values of the nation of Uzbekistan in the world, which are considered to be an integral part of the world. As well as, further increase in the prestige of Uzbekistan as a country of great scientists and scholars in an international sphere.

The party considers it important to develop appropriate programs to familiarize the world community with the achievements of Uzbekistan in the socio-political, socio-economic, cultural and spiritual spheres, including usage of the capabilities of influential national and international media.

The party pays special attention to the field of inter-ethnic relations in our country. One of the important priorities of state policy is the promotion of tolerance and humanism, the strengthening of interethnic and interfaith solidarity, the consent of citizens in society, the creation of equal rights and opportunities for all citizens regardless of nationality and religion, the patriotism of the younger generation, respect for national and international values, and upbringing young people being allegiance to the motherland.

The party consistently continues to integrate the idea of “Uzbekistan is our common home” to strengthen the idea of a single multinational family in the minds of citizens regardless of their nationality and religion.

The party will promote initiatives for the systematic implementation of national and international projects, cultural, educational, scientific and economic events, which will enhance the positive image of Uzbekistan.

We will choose a reasonable compromise with all the countries of the Central Asian region on all issues without exception, in particular, our party emphasizes the need for an approach that takes into account the interests of the countries of the region on water resources in cooperation with UN. It supports all constructive efforts aimed at eliminating environmental problems in the region.

Since terrorism today poses a real threat to the world community, it is necessary to improve state programs aimed at protecting young people from their negative impact, taking into account the real situation.

The party advocates an active foreign policy aimed at promoting economic integration and protecting national interests, efforts to establish inter-confessional, cultural dialogue.

## **VI. PRIORITY AREAS IN THE SPIRITUAL SPHERE.**

### **“WHEN HUMAN CHANGES, SOCIETY WILL CHANGE”**

The party considers it important to deepen reforms in the spiritual and educational sphere in order to strengthen the feeling of national identity, feelings of national pride and dignity among our compatriots.

Uzbekistan is the birthplace of great scientists and scholars, one of the cradles of world civilization, an integral part of the world material and intangible heritage, a center of spirituality and enlightenment, a country with high intellectual potential.

The party believes that through the implementation and restoration of national identity, the preservation and development of the spiritual and educational environment in society, it is possible to successfully solve the challenges that we face in the political, legal, socio-economic and other fields.

National identity plays an important role in the development of our country, is an invaluable internal factor in the formation of feelings of love for the country and in educating a perfect person.

National identity, the origins of the human kind begins with a study of history. A nation that has not mastered the historical experience of developing its own national statehood, national culture and spirituality is not capable of national revival.

The Democratic Party of Uzbekistan “Milliy tiklanish” considers that it is necessary for the further development of our Motherland to have a competitive and stable economy, a strong spiritual foundation, and national identity.

The party considers as a priority direction of its activity an active participation in the process of national-spiritual revival and prosperity, ensuring the priority of the principles of our national idea, strengthening the moral and spiritual foundations of our society, and further deepening reforms in the spiritual and educational sphere.

We believe that an important task is to preserve national identity based on sacred traditions, customs and values that have been shaped by our people for centuries. Our vision, goals and objectives are devoid of any nationalistic ideas.

Raising national spirituality based on the rich spiritual heritage of our ancestors and introducing it on a global scale is the priority idea of our party.

**6.1. In the field of development of national culture and spirituality, preservation and enrichment of national traditions, customs and values:**

- the preservation, enrichment and promotion of the historical, cultural and scientific heritage of our people, the study of the rich history and culture of the Uzbek people, their wide propaganda among the younger generation, the education of young people in deep respect for the historical heritage and folk traditions;

- developing and implementing the projects based on the promotion of national characteristics such as mercy, hospitality, generosity, mutual respect, tolerance, kindness and generosity inherent in our people;

- ensuring a deep, comprehensive and consistent study of the history of Uzbekistan, consistent observance of the principles of historicity and impartiality in this regard, the fight against distortion, falsification and misinterpretation of the history of Uzbekistan and the current life of the Uzbek people, bringing reliable facts about the historical past of Uzbekistan to the international auditory;

- widespread propaganda of the achievements of culture and art of the people of Uzbekistan in the international arena, the creation of works of cinema dedicated to the life and work of scientists, culture, literature and art, great statesmen, military leaders who lived on the land of modern Uzbekistan and made a significant contribution to the development of world civilization and culture;

- restoration and development of national types of crafts, which over the centuries have acquired high aesthetic value, preservation of the traditions of ancient schools of art crafts, separating the status of craftsmanship from entrepreneurship;

BASIS OF OUR ACTIVITY!**

**Democratic Party of Uzbekistan  
“Milliy tiklanish” and its deputies**

**WILL NOT BE ONLY PARTICIPANTS  
BUT ALSO THE INITIATORS AND EXECUTIVES OF REFORMS BEING  
CARRIED OUT IN OUR UNIQUE MOTHERLAND**

**DEAR VOTERS!**

Participation in the elections by the Democratic Party of Uzbekistan “Milliy tiklanish” means, first of all, active participation in the management of state and public affairs through its elected representatives.

The election of candidates from our party to representative bodies is not only a manifestation of high confidence of voters, but also an opportunity for future deputies to actively engage in active work to strengthen peace in the country, develop the country, and welfare of the people.

The pre-election platform and initiatives of the candidates nominated for the party’s representative bodies for years of 2020-2024 are the guarantee to the prosperity of our country.

We emphasize that the initiatives of the Democratic Party of Uzbekistan “Milliy tiklanish” in all areas in the election program for 2020-2024 is the milestone for the implementation of these reforms at a qualitatively new level.

Our party calls all of you to use all the qualifications and knowledge you own in order to achieve accurate and effective results in the development of our country.

We are ready to diligently serve the idea of “From national revival to national prosperity”!

Believe us, your vote for the candidates of the Democratic Party of Uzbekistan “Milliy tiklanish” is your wise choice!

Together we will follow the path of progress, build the future together!

**WE ARE ONE!  
LET US GET OUR GANDS TOGETHER!**
